

This Scripture is written in code. Each letter of the alphabet and number is substituted with a different letter or number, in a specific pattern. Can you break the code?

Clues: pronoun(s) referring to God are capitalized. NIV translation was used. Only certain books of the Bible have numbers before them (like I Samuel, etc.)

“Jg xf dpogftt pvs tjot, If jt gbjugvm boe kvtu boe xjmm

gpshjwf vt pvr tjot boe qvsjgz vt gspn bmm vosjhiufpvtoftt.”

II Kpio 2:10
