Emily									Ī						
Mason									Ī						
Derek															
Britney															
Mount.					Try to solve this logic puzzle using the										
Prairie Dog					Four kids are from four different states (Wisconsin, New York, Alabama, and Florida).										
Buffalo					like four different animals (mountain lion, prairie dog, buffalo, and coyote), and like four different activities (to swim, hike, picnic, and camp). Using the clues, figure out who likes what. (Hint-put a circle in each box if the										
Coyote															
Swim					information matches; put an X in each box if the information does not match. In other words, if Emily liked buffalo, you would put a circle in the box where "Emily" and "B." meet.)										
Hike															
Picnic Camp															

Clues:

- 1. Mason is from Alabama.
- 2. Britney does not like mountain lions or coyotes.
- 3. One of the boys is the one that likes buffalo.
- 4. Emily is from a southern state.
- 5. The child from Florida likes mountain lions and likes to camp.
- 6. Derek does not like buffalo.
- 7. The child who likes swimming is from a southern state.
- 8. Britney likes to be active.
- 9. The child from New York is a boy.
